"Why Us & not the competition?"

- Among the most efficient heaters available.
- The BR80XW is the most efficient pool heat pump sold today.
- The BR100 S7 is the 2nd most efficient pool heat pump sold today.
- Locally manufactured and serviced from Punta Gorda, FL.
- The BR115XW & BR135XW have the best warranties in the pool heat pump industry. Our superior warranty is 5 year top to bottom coverage & nothing is prorated!
- The XW Series heaters are impressively quiet: built with 825rpm motors, swept wing fan blade designed to move air quietly. XW Series heaters also come with compressor blankets as an added measure to make them one of the quietest heaters on the market.
- The S7 Series heaters are superior in quality when compared to competitor's lower priced units & now with a 7 years parts & 2 years labor warranty!
- All Built Right Heaters are ARL listed to meet UL 1996 safety standards.
- All Built Right Heaters are independently tested & certified for performance by AHRI.
- Great attention to quality & workmanship. Every heater produced is tested by a heat pump engineer with over 20 years of heat pump experience.

Best Heater—Best Price—Best Efficiency — Best Service On The Market Today!
